

## Open Training Tryouts

When 'Open Training Tryouts' are listed for the tryout process, this is generally built towards the older aged teams due to less changeover of personnel. When 'Open Training Tryouts' is not listed, this means the team is looking for more players to support additional growth of an age group or team. Please find below the standards for 'Open Training Tryouts'

### Player's process:

- Register for tryouts, even if the tryout is listed as 'Open Training Tryouts' (to gather ALL player information), **this includes both current club players and interested new players.**
- Email the coach of your age group to be evaluated during the 'Open Training Tryout' time frame (End of March-Mid April)
- Coach will have you attend sessions he/she desires for evaluation or will set two/three dates where all interested players will attend sessions with the current players.
- All players will be notified either before or within five days after the club's final tryout date (April, 26<sup>th</sup> 2019) on selection status. If decision is needed sooner, please speak with the evaluating coach.
